When my son Quinn was born I set out on a mission to clean up snacks. I'm fanatical about ingredients, and about knowing where my food comes from. The thing is, when it comes to snacks, we're all left in the dark.

I want to change that. Using your Batch Number you can see exactly what went into making this bag.

Snacks with complete transparency. That's a first. We call it *farm-to-bag*.

INGREDIENTS:

non-GMO popcorn, expeller pressed high oleic sunflower oil, dried organic kale, sea salt, dried organic carrot, onion powder, garlic powder

Distributed by Quinn Foods LLC
Woburn, MA 01801

Made in a facility on shared equipment with dairy, wheat, soy, nut, and peanut products.

Popcorn is not suited for infants and toddlers.

MADE IN THE USA

I'm fanatical about ingredients.

When my son Quinn was born we started a mission to clean up microwave popcorn. Now we are going one step further with a convenient pre-popped popcorn that's the first snack to offer a completely transparent supply chain.

NON-GMO

organic kale & cheddar

HEALTHY SNACKING

This is the first snack food with a fully transparent supply chain. Using the batch number printed on each bag you can view all the details. Every ingredient, material, and step.

We have always had a non-GMO focus, and now consumers are really catching on. Our US grown non-GMO certified corn combined with organic kale or organic cheddar also make it crazy delicious.

Popcorn is the no-brainer healthy snack. A tasty, whole grain superfood that's naturally low in calories. We're taking it up a notch by adding the best ingredients, while still staying **skinnier** than other brands.
